

Flight Mill Wiring Components and Software

Image	Item Name	Item #	Description
	NI PCI-6503 and NI-DAQ Software	777690-01	<ul style="list-style-type: none"> • User-defined power-up state • 2-wire handshake capability • 24 lines (5 V/TTL) static I/O in 8-bit ports, 2.4 mA • NI-DAQmx driver software for easy configuration • Unidirectional and bidirectional I/O • For applications requiring more than 24 digital I/O channels consider PCI-6509
	CB-50LP Connector Block w/o Cable	777101-01	<ul style="list-style-type: none"> • Dimensions: 13.26 by 7.19 cm (5.22 by 2.83 in.) • Low-cost accessory with 50 screw terminals for easily connecting field I/O signals to your DAQ board • Metal standoffs for use on a desktop or for mounting on a custom panel • One 50-pin header for directly connecting to 50-pin cables • Use with the CA-1000 for configurable connections
	Cable Assy, 50P, Flat, NB1, 1M	180524-10	<ul style="list-style-type: none"> • Connects to 50-pin connector accessories • Download PDF for compatibility charts, more detailed descriptions, and ordering information • Variety of length options • 50-pin ribbon cable for any board with a 50-pin connector
	LABVIEW Full Development System, Windows, 1 yr. Std. Srv.	776670-09	<ul style="list-style-type: none"> • Easy-to-use graphical development environment • Tight integration with a wide range of measurement hardware • Rapid user interface development for displaying live data • Extensive signal processing, analysis, and math functionality • Multiple communication options (TCP/IP, UDP, serial, and more) • Support for Windows XP/Vista/7 (32-bit) and Windows Vista/7 (64-bit)
